

Reconfirm

Regional Consortia for Internship Mobility

Reconfirm..

..is a concept for the creation and development of European regional offices for international traineeship mobility of graduates; centralizing European grant administration and expertise. Reconfirm regional offices are equipped with online administrative tools and communication tools; a traineeship portal helps trainees and companies find each other.

The concept originates from a TOI-project (2012-LDV-TOI-502).

Good practise

In Flanders (B) it led to the establishment of a central Flemish Regional Office for Internship Mobility, uniting the Flemish HEIs in a consortium. It is a central point of contact, giving online access to all graduating students in Flanders; hence boosting mobility rates and dialogue.

This concept can be beneficial for you region too!

The Reconfirm handbook can help you move further or may boost existing initiatives. Reconfirm Flanders- BE, Reconfirm TU/e-NL and (future) Reconfirm Nottingham-UK are happy to share their experiences.
