## E-learning about active EU-citizenship for mobile students “Get involved- Explore your opportunities as an EU-citizen”

### Training EU civic competences of mobile students

The Jean Monnet Chair ad personam of the University of Applied Sciences Fulda and the contact point of the Erasmus+ traineeship consortium Fulda, Germany collaborate to train EU civic competences of mobile students.

### Online training module

Erasmus trainees benefit considerably from EU citizen rights and policies. Nevertheless knowledge about the EU and EU citizen rights is very limited among mobile students. The Jean Monnet Chair and the contact point of the Erasmus+ traineeship consortium Fulda have developed an on-line training module about opportunities resulting from the European integration process and participation possibilities on a European level. The module was piloted in the framework of the on-line course “Hands-on learning – Prepare yourself for an intercultural workplace!”, which supports Erasmus trainees abroad.
