Consortia: example of a good-practice

- Action: Higher education student and staff mobility
- Coordinating organisation:
- The Flemish Universities and University Colleges Council
- EU Grant: 325 883 EUR
- The Flemish consortium 'Traineeship after graduation' focuses on outgoing traineeship mobility for all recent graduates of the participating partners, regardless of their field of education, from all the higher education institutions of the Flemish Community in Belgium. The consortium aims at meeting the needs of various student groups, higher education institutions, companies and policy makers in the field of traineeship mobility and employability. The objectives of the consortium are to offer all stakeholders a central contact and information point, and to facilitate operational procedures through streamlined processes and constructive, structural consultation. This brings the advantages of international traineeship mobility within reach of all graduates of the member institutions, to increase quantity and quality, to engage in various forums the dialogue between the world of education and the labour market.

Programme post-2020: Ideas for consortia - Questions

- What should be the main **objectives** of the future consortia could they be focused on priorities such as **inclusion**, or reaching out to different target groups of students (**widening participation**)?
- Can consortia better act as bridge towards the **world of work**? What incentives to provide to involve enterprises and other employers in the consortia?
- What **role** should consortia have and what incentives to enlarge it could be introduced?
- Should **synergies** and links between consortia be enhanced? If yes, through what measures?
- Should we introduce **transnational** mobility consortia giving the possibility to HEIs and entreprises from several countries to be part of a single consortium?
- What measures should be introduced in order to increase the **number** of mobility consortia, the number of countries involved and the share and diversity of mobility organised by consortia?

Programme post-2020: Ideas for consortia KA1 WG/NA meeting - 6 topics including *mobility consortia:*

- Inclusion for smaller HEIs, same mob opps for HEIs
- Transnational consortia
- National contact points
- Need for flexibility to add consortium members, accreditation renewal
- Quality monitoring of consortia
- Sharing of best practices cooperation between consortia at European level
